About APPLYMAGE®	p.20

The APPLYVRAC® Eterniti® range

How did it come about?

The **APPLYVRAC® Eterniti®** range grew out of meetings and exchanges with various responsible trade stakeholders who were on the lookout for **practical, long-lasting, attractive containers** which are also fun to use.

What does it include?

The **APPLYVRAC® Eterniti®** range is made up of eco-designed gravity dispensers, scoop dispensers, display cases and specific dispensers, and is constantly evolving to adapt to the **changing needs of retailers and convenience shops**: organic and bulk grocery shops, local alternative grocery shops and local producers.

Where and how are the products made?

The products in the **APPLYVRAC® Eterniti®** range are **entirely designed and manufactured in France**, in the Lyon region, using the **best conventional machining** techniques and a **short supply chain** and local economy approach.

Which requirements do the products meet?

The materials used to make the products in the **APPLYVRAC® Eterniti®** range are of the highest quality and are naturally **recyclable**. They are approved for contact with food and free from both BPA and phthalates. These physiologically safe **materials** are all **certified according to the standards in force and the latest food regulations** (analyses and tests carried out by several independent French and foreign laboratories).

Who are the products intended for?

Thanks to their specific characteristics, **APPLYVRAC® Eterniti®** dispensers are a **real alternative** to other products on the market. That's why they have already been chosen by **numerous (fixed and mobile) shops** and other **Zero Waste** proponents in France and abroad.

Main characteristics

OF THE DISPENSERS

APPLYVRAC®
eterniti®

→ Clean lines for total transparency

- design combining **simplicity, aesthetics and functionality**
- **excellent product visibility** to **showcase items in a neat and original way**
- **easy to use** for customers
- Instant **visual control** helps shopkeepers to:
 - monitor stocks in real time
 - step up the prevention of health risks

→ Installation efficiency and freedom

- **less space taken up** in aisles
- **wide choice of volumes and models** adapted to the products and their shelf lives
- **installation possible on all kinds of furniture:**
 - numerous installation solutions (from kitchen dressers to custom furniture)
 - several attachment methods available (very handy for mobile grocery vans)

→ Ergonomic and intuitive to use

- **control** and pleasure of **self-service**
 - flap that opens gradually and bag-holder on gravity dispensers
 - reduced waste thanks to the gravity dispensers' safety lock
 - lid that slides downwards on scoop dispensers
- **perfect stability:**
 - safety during handling
- **easy to fill**
- **optimum balance** between dimensions, weights and volumes:
 - reduction in expenses and prevention of musculo-skeletal disorders

→ Enhanced hygiene

- **easy cleaning** and maintenance:
 - many parts are removable or extractable (including the gravity dispenser spout for regular and rapid cleaning)
 - dispensers are lightweight and sturdy, so they can be cleaned manually with vigour
 - can be placed in professional dishwashers
- **excellent airtightness:**
 - gravity dispensers have a lock and dual-flap system, which helps to reduce health risks
 - scoop dispensers have airtight lids
- **contact area restricted to release knobs** during service:
 - knobs are treated against germs, bacteria, viruses and coronaviruses (including Covid-19)
 - scoop dispensers can be opened without touching the inside of the lid

→ Exceptional durability

- The materials used are of **top quality** and **extremely impact-resistant**
 - they are guaranteed to be sturdy and last an extremely long time
- **Extended life span** of the products:
 - total, simple and fast repairability
 - all components can be replaced by the user
 - assembly is fully mechanical with stainless steel crosspieces (no gluing or welding) and there are no plastic injection-moulded parts
 - reduction in waste as well as logistical and transport constraints (reduced carbon footprint)
- **5-year contractual warranty**

→ Possibility of customisation and tailor-made items

GRAVITY DISPENSERS

What products are they suitable for?

Small, non-powdery, non-sticky, non-liquid, packaging-free products*

* Gravity dispensers are not suitable for all kinds of products: please refer to the "contents/containers" list provided.

Thanks to their gentle and gradual **DUAL-FLAP** system, APPLYVRAC® Eterniti® gravity dispensers **DISPENSE JUST THE RIGHT AMOUNT** and offer **GREAT VISIBILITY**.

The safety lock reduces waste and health risks.

The bag-holder makes it easier for customers to fill up their bags.

The extractable parts (lid, front panel, flap, spout and bag-holder) ensure **EFFECTIVE CLEANING**.

Several attachment methods are available for greater installation efficiency and freedom.

This handy solution is particularly popular in mobile grocery vans.

SCOOP DISPENSERS

What products are they suitable for?

Products of all sizes, including powdery and floury, complex-shaped and non-liquid products.

The extremely **AIRTIGHT** and **INCREDIBLY VERSATILE** APPLYVRAC® Eterniti® scoop dispensers can be used for all kinds of food or non-food products. Their extractable scoop holder, top hatch and lid make them **EASY TO FILL** and **CLEAN**.

Thanks to its optimum "space-to-volume" ratio and its wide opening, 20L and 30L dispensers are ideal for **VERY HIGH TURNOVER PRODUCTS** (pasta, sugar, flour, sodium bicarbonate, animal food, etc.)

completely transparent for excellent product visibility and promotion

OIL AND LIQUID DISPENSERS

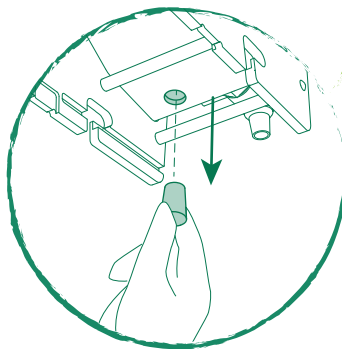

What products are they suitable for?

ideal for vegetable oils!

APPLYVRAC® Eterniti® oil and liquid dispensers are designed to ensure **CLEAN AND SAFE SERVICE** thanks to their precision tap and their removable tray.

The **EMPTYING SYSTEM** ensures that every last drop of the liquid is recovered; it also makes the dispenser easier to clean.

And as these dispensers are totally transparent they are ideal for promoting the product on sale.

about Applymage®

Our expertise

APPLYMAGE®, based in the Lyon region, has been designing and producing **display cases and dispensers** for various business sectors, including the health and convenience store sectors, **since 2007**.

With its products, **APPLYMAGE®** aims to **showcase its customers' products** for improved marketing.

APPLYMAGE® products are **distributed** directly or via its customers **across all five continents** in over 80 countries.

Our approach

APPLYMAGE® and its designers – who have received the "Observateur du Design" award several times – are committed to developing **eco-designed** products that are **made in France**, increasingly **innovative** and **built to last**, and which meet user needs as closely as possible.

APPLYMAGE® invests regularly and heavily in **R&D** and **Intellectual Property** to bring new innovations onto the market each year.

Applymage® Eco

APPLYMAGE® Eco, with its **Applyvrac®** and **Eterniti®** brands, focuses on developing equipment and solutions intended to improve the layout and dynamism of **retail outlets and convenience stores**, especially **organic** and **bulk grocery shops** as well as **hotels** and **homes**.
